

Green Ossining's 5th Annual Earth Day Festival **E-WASTE DRIVE**

**April 18, 2015 - 11am-4pm
Louis Engel Waterfront Park**

GOT BROKEN OR UNWANTED ELECTRONICS?

Bring it to Green Ossining's Earth Day Festival and we'll tell you whether it can be fixed—and if not, we'll show you how it can be repurposed, reused, and recycled, and even provide a tax-deductible receipt!

WHAT TO BRING

All Computers (including peripheral devices: monitors, printers, scanners, laptops, keyboards) • Copiers • Cell Phones • DVD players • Small Electronic Household Items • Vacuums • Power Tools
Although they aren't e-waste, the barge has a special affection for bicycles and scooters, so bring those too!

WHAT NOT TO BRING

Microwaves • TVs • Anything with gas oil, transmission fluid, or lubricants (must be emptied of all first)

Croton Copier will advise whether your electronics can be repaired, and the Groundwork Hudson Valley-Science Barge will collect all e-waste to be reused or properly recycled.

SPECIAL COLLECTION:

Working Personal Music Players for Bethel Homes

Bethel Homes is looking for donations of working MP3 players, iPods, iPhones, iPads, and iTunes gift cards for its **MUSIC AND MEMORY** program, which enhances the lives of its residents by creating individualized playlists of their favorite music, helping ease the distress of residents with dementia, anxiety, depression and other cognitive diagnoses, as well as physical ailments. Research has shown that music triggers memories, calms brain activity, and allows the person to connect with others, allowing a more positive day-to-day experience. **Donations can also be dropped off at a Bethel location: 17-19 Narragansett Ave., Ossining or 62 & 67 Springvale Rd., Croton**
